

ILVERZON ZARATE

QA Engineer

Barcelona, Spain | +34 617 085 651 | ilverzonzarate@gmail.com | [linkedin.com/in/ilverzon](https://www.linkedin.com/in/ilverzon) |

PROFESSIONAL SUMMARY

QA Engineer with 13 years of experience delivering quality strategies for complex digital products across industries including fintech, e-commerce, media, aviation, and telecommunications. Background in UX design provides practical insight into usability and user flow issues that functional testing alone does not catch. ISTQB certified.

EXPERIENCE

Senior QA Analyst | Huge | Bogota, Colombia Jan 2020 – Sep 2025

- Worked across multiple enterprise client projects, establishing QA processes and automation coverage within Agile/Scrum workflows.
- Built Cypress automation frameworks that reduced regression cycles by 75–87% across multiple projects, enabling reliable pre-deploy verification.
- Established QA processes from project kickoff, shifting defect detection to pre-production stages across simultaneous releases.
- Coordinated distributed teams across multiple time zones, maintaining project schedules through major releases.
- Defined risk-based test strategies for clients in e-commerce, media, and fintech.
- Mentored junior QA engineers on automation practices and quality standards.

Senior QC Analyst | Globant | Buenos Aires, Argentina Feb 2018 – Jan 2020

- Managed QA across concurrent projects within Agile/Scrum environments.
- Implemented Cypress automation frameworks, significantly reducing regression testing time per sprint.
- Coordinated integration between development, product, and QA teams, ensuring smooth deployment cycles.
- Established quality metrics and release-readiness dashboards used by product and delivery teams.

QA Analyst | Globant | Bogota, Colombia Apr 2015 – Jan 2018

- Executed functional, regression, cross-browser, and cross-device test cases for responsive web applications.
- Covered front-end and back-end testing, identifying critical defects before production.
- Collaborated with product teams to define testing strategies and acceptance criteria for major feature releases.
- Managed automated test suites and supported integration teams in test case design and execution.

Sr. Technical QA Analyst | VML (VMLY&R) | Bogota, Colombia Mar 2012 – Apr 2015

- Evaluated high-risk areas in digital campaign platforms, prioritizing testing under tight deadlines.
- Validated software releases for major brand campaigns and established baseline QA processes for the agency.
- Maintained communication between technical teams and non-technical stakeholders, translating defects into actionable business impact.

TECHNICAL SKILLS

Automation & Tools: Cypress, Backstop, Postman, Jira, Confluence, Git, GitHub Actions, Google Analytics

Testing: Functional, regression, integration, performance, load, accessibility (WCAG), cross-browser, cross-device, mobile, API (REST), exploratory, usability

Methodologies: Agile/Scrum, Kanban, Scrumban, Risk-based testing, Test-driven development, CI/CD integration, Process establishment

Design & UX: Figma, Adobe Creative Suite, user flow analysis, responsive design

EDUCATION

Master's in Advanced Design Studies (MBDesign) | Universitat Politecnica de Catalunya, Barcelona | 2025
– *Present*

Bachelor's Degree in Design | Universidad de Palermo, Buenos Aires | 2019

CERTIFICATIONS & LANGUAGES

ISTQB Certified Tester Foundation Level (CTFL) | Spanish: Native | English: C2 Proficient
