QA ENGINEER

13 years of experience delivering quality strategies for complex digital products across fintech, e-commerce, media, aviation, and telecommunications. Strong foundation in manual QA and product-focused quality, informed by a UX design background that brings attention to usability and user flows alongside functional correctness. ISTQB certified, with practical experience in Cypress, visual regression testing, and Playwright.

CORE SKILL

Quality strategy & delivery: Risk-based test strategy; acceptance criteria; defect management; release readiness; Agile/Scrum; Kanban; CI/CD; Jira; Confluence; cross-functional collaboration; mentoring.

Manual & product QA: Functional, regression, integration, exploratory, acceptance, and end-to-end user-journey testing; test plans and test cases; usability testing; user-flow analysis; Figma; Google Analytics; Adobe Creative Suite.

Web, mobile & API validation: Responsive web, mobile, cross-browser, cross-device, usability, accessibility (WCAG), performance and load, and REST API testing; frontend and backend flow validation; Postman.

Automation practice: Cypress; Playwright; visual regression testing; cross-browser execution; Git; GitHub Actions; HTML test reporting; semantic locators; fixtures.

EXPERIENCE

Senior QA Analyst | **Huge** | Bogota, Colombia *Jan 2020 – Sep 2025*

- Set up QA processes for enterprise releases and added Cypress checks for critical flows before deployment.
- Defined risk-based coverage for complex e-commerce, media, and fintech products, based on planned changes and user impact.
- Investigated and documented defects clearly, giving product and engineering teams the information needed to assess release risk.
- Coordinated QA work across distributed teams and concurrent release workstreams.
- Mentored junior QA engineers on test design, automation practices, and quality standards.

Senior QC Analyst | **Globant** | Buenos Aires, Argentina *Feb 2018 – Jan 2020*

- Led QA across several Agile projects, from test planning and execution to defect tracking and release-readiness checks.
- Introduced Cypress checks and quality metrics that made repeatable coverage and release risks visible to product and development teams.
- Worked with product and development teams to clarify acceptance criteria and test coverage.
- Created release-readiness dashboards for delivery teams.

QA Analyst | **Globant** | Bogota, Colombia *Apr 2015 – Jan 2018*

- Executed functional, regression, cross-browser, and cross-device testing for responsive web applications.
- Validated frontend and backend flows, identifying and documenting critical defects before production.
- Worked with product teams to define test coverage, acceptance criteria, and test cases for major releases.
- Maintained automated test suites and supported integration testing.

Sr. Technical QA Analyst | **VML** | Bogota, Colombia *Mar 2012 – Apr 2015*

- Prioritised test coverage for high-risk areas in digital campaign platforms under tight deadlines.
- Validated releases and established baseline QA practices for agency projects.

– Explained technical issues in terms of their user and business impact for technical and non-technical stakeholders.

EDUCATION

Master's in Advanced Design Studies (MBDesign) | Universitat Politècnica de Catalunya, Barcelona | *2025 – 2026*

Bachelor's Degree in Design | Universidad de Palermo, Buenos Aires | *2019*
